It's H-O-T!!! So, we can't do anything about the heat, but we can buy things to make ourselves feel better. We know, we know, you're thinking that we are totally materialistic. Well, yeah, we are. Here are a few things that you should buy to take the edge off the oppressive heat.

Summer Palette Bag, \$56
by Yen Linh

We love all of the bags from Yen Linh. Each one is hand-crafted by skilled artisans in Vietnam. The Summer Palette bag is one of our faves - we love its dark handles and light summery dyed silk. It's just the perfect size to carry around town, to run errands, or to take to Happy Hour with the girls!
